*** Making a papier mache planter:**

Material we require:

- **Paper:** Newspaper, old magazines, or even tissue paper can be used.
- **Mould:** Any container can be used as a mould, such as a bowl, vase, or even a balloon.
- **Paste:** A simple paste made of flour and water is commonly used.
- **Optional:** Glue, paint, or other decorative materials.

Let's get started:

1. **Prepare the Paste:** Mix flour and water to create a paste of desired consistency.
2. **Cover the Mould:** Dip or coat paper strips or sheets in the paste and apply them to the mould, overlapping them to build up layers.
3. **Dry the Pot:** Allow the papier mache to dry completely, which may take several hours or even a day.
5. **Remove the Mould:** Once dry, carefully remove the mould from the papier mache pot. Paint, decorate or add embellishments to personalize your pot.
